

# Product Enhancements

Project  
Update  
# 328

To assure all types of browser's work on the i3 suite we have been migrating all code to html 5.

Issue Date  
4/12/2018

## HTML 5

**HTML5**<sup>[a]</sup> is a markup language used for structuring and presenting content on the World Wide Web. It is a goal to use this standard in all i3 code.

Contact Dataware for more Information regarding these product changes.
